Active ingredients for functional benefits

Acneol SR®

Multifunctional active for acne prone skin

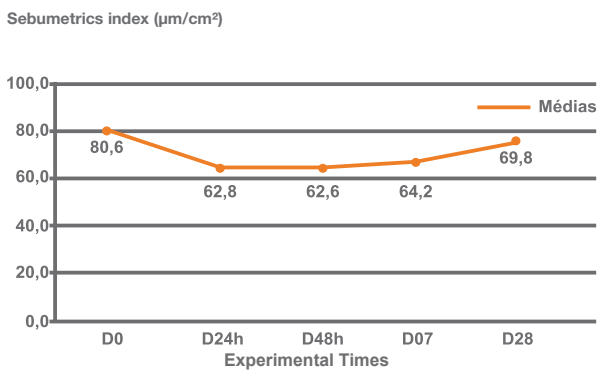

Acneol SR®

Exclusive multifunctional ingredient for skin sebum control with anti-inflammatory and healing properties, containing essential bioavailable minerals, botanical extracts, salicylic acid and sulfur.

Skin benefits:

1. Significant improvement of erythema and edema in inflammatory lesion.
2. Promote oil control.
3. Helps inhibit inflammatory response.
4. Reduction on the amount, size and presence of acne lesions and comedos.
5. Improvement of overall skin appearance.
6. Boost cell renewal and skin healing process.
7. Visible results in 24 hours.

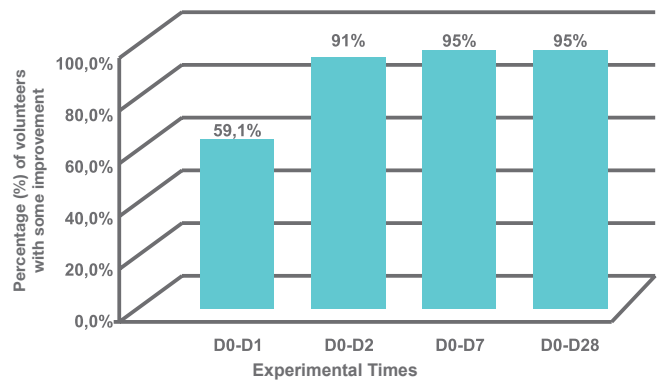

Sebum content index on facial skin of volunteers before and after the use of a gel containing Acneol SR® - 5% at 24 hours, 48 hours, 7 days and 28 days of continuous product application (measured with Sebumeter® 815. Rating: dry skin = values between 0-40, normal skin = values between 41-70, oily skin = values between 71-100).

Use:

Daily skin care products for oil control and acne treatment. Recommended dosage: 2 – 5% in creams, lotions, soaps (bar or liquid) and gels.

Percentage of volunteers with **visible improvement of edema** when using a gel containing **Acneol SR®** at 5% (*measurement*: results obtained through clinical evaluation during the experimental period of 24 hours, 48 hours, 7 days and 28 days of continuous product application).

Percentage of volunteers with **visible improvement of erythema** when using a gel containing **Acneol SR®** at 5% (*measurement*: results obtained through clinical evaluation during the experimental period of 24 hours, 48 hours, 7 days and 28 days of continuous product application).
