WELCOME TO AQIA QUÍMICA INOVATIVA

For 40 years bringing innovative and exclusive technologies to the personal care market

We are a chemical and pharmochemical industry that creates, develops and manufactures ingredients for the Cosmetics, Food, Pharmaceutical and Veterinary industries with a broad portfolio since 1984.

We provide a complete set of products and services that include technical advice with suggestions for formulations and applications; and marketing support with insights, concepts and innovations.

AQIA has been offering to the customers a personalized service, through technical support, customized development of formulations and new concepts that meet the needs of the market with exclusive AQIA technologies.

Offering solutions with the sourcing of natural vegetable oleochemicals, alternatives to the use of petrochemical ensuring performance, exclusive and patented molecules such as organic silicium, plant derived silica, micronized powders and pigments, oils and active plant extracts, proteins, functional lipids and synergistic complex.

HAIR CARE

Prevent, preserve, modify and repair the hair fibers. AQIA has a complete line of actives obtained through chemical synthesis and formulation technology, resulting in high activity synergic compounds.

PRODUCT	INCI	DESCRIPTION	USE LEVEL
BIO.ACETUM BALSÂMICO Hair sealant High shine	Vinegar (and) Vitis Vinifera (Grape) Fruit Extract (and) Water (and) Fructose (and) Glucose (and) Gluconic Acid (and) Gluconolactone (and) Caesalpinia Spinosa Gum (and) Commiphora Myrrha Resin Extract (and) Myroxylon Balsamum (Balsam Tolu) Resin (and) Styrax Benzoin Resin Extract	Balanced composition of balsamic vinegar, alpha and polyhydroxy acids, sugars and polysaccharides that rebalance the pH of the hair fiber, seal the cuticles and promote intense hydration.	1.0 - 5.0%
BIO.ACETUM FRUTAS ÁCIDAS Hair sealant High shine	Vinegar (and) Pyrus Malus (Apple) Fruit Extract (and) Water (and) Fructose (and) Glucose (and) Gluconic Acid (and) Gluconolactone (and) Caesalpinia Spinosa Gum (and) Citrus Limon (Lemon) Fruit Extract (and) Tamarindus Indica Fruit Extract	Balanced composition of acid fruits vinegar (apple, lemon and tamarind), alpha and polyhydroxy acids, sugars and polysaccharides that rebalance the pH of the hair fiber, seal the cuticles and promote intense hydration.	1.0 - 5.0%
BIO.ACETUM MAÇÃ Hair sealant High shine	Vinegar (and) Pyrus Malus (Apple) Fruit Extract (and) Water (and) Fructose (and) Glucose (and) Gluconic Acid (and) Gluconolactone (and) Caesalpinia Spinosa Gum	Balanced composition of apple vinegar, alpha and polyhydroxy acids, sugars and polysaccharides that rebalance the pH of the hair fiber, seal the cuticles and promote intense hydration.	1.0 - 5.0%
BIO.APIS Royal Jelly Vital nutrients	Honey extract (and) propolis extract (and) pollen extract (and) royal jelly extract	Complex of Royal Jelly associated whit bees'pure honey, propolis and pollen. Rich in vitamins, and ultra-nutritive agents which restore the vitality of damaged hair fibers.	1.0 - 3.0%
BIO.ELIXIR Ultra nourishing oil Brightness and softness	Gossypium Herbaceum seed Oil (and) Butyrospermum Parkii Butter (and) Macadamia Ternifolia seed Oil (and) Cocos Nucifera Fruit Extract (and) Chamomilla Recutita Flower Extract (and) Aloe Barbadensis Leaf Extract (and) Camellia Sinensis Leaf Extract (and) Cinnamomum Zeylanicum Bark Extract (and) Acorus Calamus Root Extract (and) Commiphora Myrrha Resin Extract (and) Olea Europaea Fruit Oil (and) Water (and) Argania Spinosa Kernel Oil (and) Lecithin (and) Polyglyceryl-3 Diisostearate (and) Glycerin (and) Glyceryl Stearate	Functional oils (legendary, nutritious and extraordinary) have been increasingly incorporated into products for hair care, in the most varied products, from creamy shampoos to finalizing oils with multiple properties.	2.0 - 5.0%
BIOEX ANTICASPA (BIOEX ANTI-DANDRUFF) Scalp care Anti-dandruff	Arctium Lappa Root Extract (and) Humulus Lupulus (Hops) Extract (and) Thymus Vulgaris (Thyme) Extract (and) Achillea Millefolium Extract (and) Zizyphus Joazeiro Bark Extract (and) Citrus Medica Limonum (Lemon) Fruit Extract (and) Pyrus Malus (Apple) Fruit Extract (and) Vitis Vinifera (Grape) Fruit Extract (and) Chlorophyllin-Copper Complex (and) Salicylic Acid	Association of plant extracts that help to prevent and combat excessive flaking of the scalp. Coadjuvant in the treatment of dandruff.	1.0 - 5.0%
BIOEX ANTIOLEOSIDADE (BIOEX ANTI-OILINESS) Anti-dandruff Anti-seborrheic	Nasturtium Officinale Extract (and) Arctium Majus Root Extract (and) Salvia Officinalis (Sage) Leaf Extract (and) Citrus Medica Limonum (Lemon) Fruit Extract (and) Hedera Helix (Ivy) Extract (and) Quillaja Saponaria Bark Extract	Composed of hydroglycolic plant extracts that contain water-soluble and aromatic fractions. Treats excess hair oil and prevents dandruff.	1.0 - 10.0%

PRODUCT	INCI	DESCRIPTION	USE LEVEL
BIOEX ANTILIPÊMICO (BIOEX ANTILIPEMIC) Metabolic stimulant Stimulates the peripheral microcirculation	Arnica Montana Flower Extract (and) Aesculus Hippocastanum (Horse Chestnut) seed Extract (and) Centella Asiatica Extract (and) Equisetum Arvense Extract (and) Fucus Vesiculosus Extract (and) Hedera Helix (Ivy) Extract (and) Ilex Paraguariensis Leaf Extract	Association of Fucus algae and plant extracts rich in phyto-drain elements, with auxiliary properties for the cosmetic treatment of seborrhea.	2.0 - 10.0%
BIOEX CABELOS NORMAIS (BIOEX NORMAL HAIR) Conditioning Smoothing	Aloe Barbadensis Leaf Extract (and) Malpighia Punicifolia (Acerola) Fruit Extract (and) Pfaffia Paniculata Root Extract (and) Avena Sativa Meal Extract (and) Achyrocline Satureiodes Flower Extract (and) Triticum Vulgare (Wheat) Germ Extract (and) Ginkgo Biloba Leaf Extract	Plant-derived extracts carefully selected by its properties to enhance shine, volume and malleability to normal hair.	1.0 - 5.0%
BIOEX CABELOS OLEOSOS (BIOEX OILY HAIR) Sebum regulation Scalp purifier	Achillea Millefolium Extract (and) Zizyphus Joazeiro Bark Extract (and) Citrus Medica Limonum (Lemon) Fruit Extract (and) Salvia Officinalis (Sage) Leaf Extract (and) Mentha Arvensis Leaf Extract (and) Rosmarinus Officinalis (Rosemary) Leaf Extract (and) Quillaja Saponaria Bark Extract	Association of active ingredients of vegetable origin with astringent, purifying and seborregulating action. It helps to prevent and combat excessive greasiness of the scalp.	1.0 - 5.0%
BIOEX CABELOS SECOS (BIOEX DRY HAIR) Hydrating Nourishing	Aloe Barbadensis Leaf Extract (and) Algae Extract (and) Honey Extract (and) Calendula Officinalis Flower Extract (and) Carica Papaya (Papaya) Fruit Extract (and) Actinidia Chinensis (Kiwi) Fruit Extract (and) Prunus Amygdalus Dulcis (Sweet Almond) seed Extract	A complex of vegetable extracts to treat dry hair, extracted from carefully selected plants. Its composition has a high affinity with hair proteins, giving more life, shine and softness to the hair.	1.0 - 5.0%
BIOEX CAPILAR Hair growth Hair and scalp's health	Cinchona Calisaya Extract (and) Capsicum Annuum Fruit Extract (and) Pollen Extract (and) Arnica Montana Flower Extract (and) Urtica Dioica (Nettle) Leaf Extract (and) Pfaffia Paniculata Root Extract (and) Egg Yolk Extract (and) Triticum Vulgare (Wheat) Germ Extract (and) Acetyl Methionine (and) Sodium Chondroitin Sulfate	Association of active ingredients traditionally used to preventing and combating hair loss. Supports a healthier and stronger hair growth.	1.0 - 10.0%
BIOEX CAPILAR GP4G Bioenergizing Hair revitalization	Cinchona Calisaya Extract (and) Capsicum Annuum Fruit Extract (and) Pollen Extract (and) Arnica Montana Flower Extract (and) Urtica Dioica (Nettle) Leaf Extract (and) Pfaffia Paniculata Root Extract (and) Egg Yolk Extract (and) Triticum Vulgare (Wheat) Germ Extract (and) Acetyl Methionine (and) Sodium Chondroitin Sulfate (and) Artemia Extract	Synergistic combination of plants & herbs enriched with Artemia salina to regulate the growth of the hair.	0.5 - 5.0%
BIOEX CEREAIS Color Maintenance Moisturizes	Hydrolyzed Wheat Protein (and) Hydrolyzed Soy Protein (and) Avena Sativa (Oat) Meal Extract	Association of soy and wheat proteins with oat extract. Rich in peptides and carbohydrates. Moisturizes, protects and softens the skin and hair.	1.0 - 7.0%
BIO.RESTORE® Fiber restoring Color protection	Hydrolyzed Wheat Protein (and) Methicone (and) Polyquaternium-10 (and) Carbocysteine	Exclusive complex based on carbocysteine and amino acids specially developed to restore extra-dry hair and fragilized by chemical processes. Provides cuticle sealing and enhances color protection, giving more vivacity and strength.	0.1 - 2.0%

PRODUCT	INCI	DESCRIPTION	USE LEVEL
BIOTIN SOL Strength Resistance	<i>Biotin</i>	Also known as vitamin B7. It has to do with the production of keratin, protein that makes up hair and nails, favoring your growth and strengthening.	1.0 - 6.0%
DEEP COLOR Fiber restoring Intense and long lasting coloring	<i>Helianthus Annuus (Sunflower) Seed Oil (and) Ethyl Olivatate (and) Ethyl Laurate (and) Ethyl Linoleate (and) Oryza Sativa (Rice) Bran Wax (and) Jojoba Esters (and) Water (and) Alcohol</i>	A 100% vegetable complex that allows a better dispersion of the pigment during the hair dye color process, promoting inside the hair fiber a more intense, uniform and long lasting vibrant color.	0.5 - 4.0%
EPINUTRIX Biomimetic lipid repair from the scalp to the hair tip	<i>Panthenyl Dibehenate/Oleate</i>	Biomimetic lipid compound produced from the reaction between vegetable fatty acids and D-Panthenol, promotes intense biomimetic lipid repair, with proven benefits on scalp and hair tip.	0.5 - 1.0%
FIBER.CARE X Moisturizing Hydrolipidic hair balance	<i>Helianthus Annuus (Sunflower) seed Oil (and) Hydrolyzed Rice Protein (and) Ethyl Olivatate (and) Ethyl Laurate (and) Jojoba Ester (and) Oryza Sativa (Rice) Bran Wax (and) Xylitol (and) Glycolic Acid (and) Alcohol (and) Aqua</i>	Composed of xylitol and protein hydrolyzate in a bioesters carrier system that permeate the hair fiber and promote hydro-lipid rebalancing for all hair conditions and types.	0.5 - 2.0%
HYALUEX SB Hyaluronic acid Fiber repair	<i>Hyaluronic Acid (and) Water (and) Glycerin</i>	Hydrates and recovers shine and flexibility, forming a protective shield that reduces frizz.	1.0 - 10.0%
HYDRA.SIL® Internal moisturizing Bio-silicium and Panthenol	<i>Silanetriol (and) Panthenol</i>	Creates bonds between the internal moisture of the hair with bio-silicium and panthenol. Resistant to alkaline pH. In hair treatments, helps to protect preserving the hair's hydrogen bonds during relaxer's processes.	2.0 - 5.0%
KERAFILM Molecular adhesion system Total repair of hair fiber	<i>Hydrolyzed Keratin (and) Chitosan Succinamide (and) Polyquaternium-10 (and) Water</i>	Complex of amino acids and film forming agents that retain moisture on the hair fiber. Improves the texture through a sealant and restorative action on the fibers.	1.0 - 3.0%
LIPOSEAL UB Natural hair sealant Instant nutrition	<i>Cinnamomum Zeylanicum Bark Extract (and) Acorus Calamus Root Extract (and) Commiphora Myrrha Resin Extract (and) Olea Europaea (Olive) Fruit Oil</i>	Nutritive exotic oils (calamus, myrrh, olive, cinnamon) that restore the natural flexibility of the hair fibers due to the high content of extra-emollients and lubricant agents.	1.0 - 3.0%
MAX-LISS CEREAIS Hair discipline Anti-frizz	<i>Hydrolyzed Wheat Protein (and) Helianthus Annuus (Sunflower) Extract (and) Avena Sativa (Oat) Meal Extract (and) Polyquaternium-10</i>	Balanced and stable association of medium and high molecular weight peptides obtained from wheat, extracts of sunflower and oats associated with the multifunctional polymer. promotes disciplinary action, giving an anti-frizz action and greater softness to the hair.	1.0 - 5.0%

consult us about the preservative systems of the active ingredients

PRODUCT	INCI	DESCRIPTION	USE LEVEL
NATCOLOR CLOROFILA Natural pigment	<i>Chlorophyllin-Copper Complex (and) Water (and) Benzyl Alcohol</i>	Water-soluble complex derived from the extraction of natural green pigments with antioxidant, healing, detoxifying, natural coloring and deodorizing properties.	0.05 - 3.0%
PLANTCOL High affinity with hair Curl defining	<i>Acacia Senegal Gum Extract</i>	Acacia senegal concentrate. Rich in gums, amino acids and high molecular weight proteins. Moisturizing and film-forming agent for hair and skin.	1.0 - 5.0%
PROARROZ SP Long lasting hair dyes Fiber restoring	<i>Hydrolyzed Rice Protein</i>	Hydrolyzed protein and carbohydrates from rice has conditioner and restorative properties. Ideal for dyed hair.	0.5 - 5.0%
PHYTO.CARE AOX Antioxidant action Hair protection	<i>Curcuma Longa Root (and) Camellia Sinensis Leaf (and) Chamomilla Recutita Flower (and) Rosmarinus Officinalis Leaf (and) Ethyl Olivatate (and) Ethyl Laurate (and) Ethyl Linoleate (and) Jojoba Esters (and) Oryza Sativa Bran wax (and) Quercetin (and) Xanthophyll (and) Alcohol</i>	Bioprotective antioxidant system with high diffusion capacity into the fiber. It acts against the environmental aging and oxidative stress in the hair fiber and scalp.	1.0 - 4.0%
PROCOLOR DC Bleached hair repair Deep lipid rebalance for a bleached hair recovery	<i>Commiphora Myrrha Resin Extract (and) Propolis Extract (and) Beeswax (and) Candelilla Cera (and) Methyl Soyate (and) Babassu Seed Oil Ethyl Esters</i>	This natural complex presents good permeation through membranes and hair fibers, and promotes the balance (tribology) of intra and inter lubrication of bleached hair fibers.	0.5 - 5.0%
PROLISS®100 Thermal realignment Volume and curls reduction	<i>Glyoxyloyl Carbocysteine (and) Glyoxyloyl Keratin Amino Acids (and) Water</i>	Exclusive and patented technology for the thermal realignment of the hair fiber.	4.0 - 30.0%
PROQUERATIN SP Natural hair sealant Instant nutrition	<i>Hydrolyzed Wheat Protein (and) Hydrolyzed Soy Protein (and) Carbocysteine (and) Threonine (and) Serine (and) Glutamic Acid</i>	Composition similar to human hair keratin. Restores the hair fiber day after day.	2.0 - 10.0%
PRO.QUINOA HQ Repairing protein Bionutrition	<i>Hydrolyzed Quinoa</i>	Aqueous hydrolyzed Quinoa seed, its composition is rich in lipid and amino acids that penetrates hair fiber protecting and repairing damages caused on a daily basis. It forms a protective film strengthening and nourishing the hair and skin.	0.5 - 1.0%

consult us about the preservative systems of the active ingredients

PRODUCT	INCI	DESCRIPTION	USE LEVEL
PROTEINAN SP Restorative Effect Confers softness and shine	<i>Hydrolyzed Collagen</i>	Hydrolyzed Collagen. It acts as a hydrating agent and supplier of biological precursors.	5.0 - 10.0 %
PROTRIGO SP Shine Protection Restoration	<i>Hydrolyzed Wheat Protein</i>	Wheat hydrolyzed protein. Contains plant peptides originating from wheat. Restores natural flexibility.	0.5 - 10%
QUERATAN SP Cuticle penetrating Restoration and hydration	<i>Hydrolyzed Keratin</i>	Hydrolyzed keratin. It has high affinity for hair, promoting a restorative action due to the presence of low molecular weight peptides. Product also available in powder.	1.0 - 5.0%
QUERATRIX SB Hair strength Cuticle penetrating	<i>Hydrolyzed Keratin (and) Creatin</i>	Hydrolyzed keratin, complexed with creatine repairs the hair structure day after day, giving strength to the hair fibers.	3.0 - 6.0%
REPARAGE® Fiber repair Increase on the diameter of hair fiber	<i>Polyquaternium-10 (and) Water (and) PEG-90M (and) Hydrolyzed Rice Protein (and) Carbocysteine (and) Serine (and) Glutamic acid</i>	Multifunctional active that increases the diameter of aged hair fiber and repair macro and micro damages caused by physical, chemical, thermal and environmental stress.	1.0 - 3.0%
SEIVAMEL High shine Instant nutrition	<i>Water (and) Glycerin (and) Polymnia Sonchifolia Root Extract.</i>	Yacon hydrolyzed. Rich in monosaccharides, oligosaccharides and fructooligosaccharides. Vegetable active, mimetic to the honey, which gives shine to hair.	1.0 - 5.0%
SILKION AAS SP Hair strength Cuticle penetrating	<i>Hydrolyzed Silk</i>	Hydrolyzed silk protein restores and adds shine to opaque and devitalized hair.	0.5 - 5.0%
TAMARILIZ Antioxidant protection Hair cohesion enhancement	<i>Tamarindus Indica Fruit Extract</i>	Tamarind pulp concentrate that increases the integrity, cohesion and hair fiber resistance. Provides cuticle smoothing with reduced friction that give a "satin cap" effect: disciplined and frizz-free hair.	1.0 - 3.0%
TRIBOXYL AAC Lubrification Straightening maintenance	<i>Commiphora Myrrha Resin Extract (and) Propolis Extract (and) Beeswax (and) Candelilla Cera (and) Carbocysteine (and) Methyl Soyate (and) Babassu Seed Oil Ethyl Esters</i>	Tribological lipophilic complex that treats and protects the hair during acid straightening. More intense and long-lasting straightening effect with improved balance, softness and shine.	1.0 - 5.0%

SKIN CARE

Actives are the main components of the cosmetic and dermocosmetic formulations. They are fundamental elements used in products in order to protect, regenerate, nourish, moisturize and rejuvenate the skin.

PRODUCT	INCI	DESCRIPTION	USE LEVEL
ACNEOL® SR Sebum control Acne treatment	<i>Water (and) Silanediol Salicylate (and) Zinc Acetylmethionate (and) Propylene Glycol (and) Acacia Senegal Gum Extract (and) Polysorbate 20 (and) Humulus Lupulus Extract (and) Aloe Barbadensis Leaf Extract (and) Citrus Limon Fruit Extract (and) Melaleuca Alternifolia Leaf Extract (and) Olivamidopropyl Betaine (and) Sulfur (and) PEG-400 (and) Polysorbate 80 (and) Salicylic Acid</i>	Anti-acne complex containing oligozinc, organic silicium, botanical extracts and salicylic acid. Normalizes queratogenesis and healing process. Controls oily skin for 24 hours.	2.0 - 5.0%
AGREEN LSO Bioactive Emollient Skin barrier integrity protection	<i>Ethyl Oleate</i>	Bioactive emollient with excellent sensory properties to protects the integrity of the skin barrier and restores the skin natural elasticity.	1.0 - 40.0%
ANTI-OX 3D Antioxidant protection Anti-Glycation	<i>Coffea arabica (Coffee) seed Extract (and) Rutinyl Succinate (and) Decarboxy Carnosine Hcl (and) Caffeine (and) Siloxanetriol Alginate (and) Butylene Glycol (and) Water</i>	Powerful natural antioxidant complex based on bioflavonoids, bio-peptide and coffee extract (rich in flavonoids) promotes protective action on cells and reduces cell damage.	3.0 - 8.0%
AQUAPORINE ACTIVE AQP-3 Antioxidant protection Anti-Glycation	<i>Glutamylamidoethyl Indole (and) Silanetriol Trehalose Ether (and) Glycerin (and) Water</i>	Biopeptide derived from glutamic acid associated with silanetriol trehalose, promotes deep skin hydration by increasing the expression of Aquaporines-3.	2.0 - 5.0%
BIOEX WHITEPLEX Skin lightening Even skin color	<i>Glycyrrhiza Glabra (Licorice) Root Extract (and) Ferula Assa Foetida Gum Extract (and) Sambucus Nigra Flower Extract (and) Morus Nigra Leaf Extract (and) Vitis Vinifera (Grape) seed Extract (and) Arctostaphylos Uva Ursi Leaf Extract</i>	Association of concentrated botanical extracts that normalize hyperpigmentation. Decreases melanogenesis.	0.5 - 5.0%
CAFFELINE SS Cellulite control Anti-Inflammatory	<i>Sodium Salicylate (and) Caffeine (and) Water</i>	Water-soluble caffeine for use in products for body massage, anti-cellulitis and eye area.	3.0 - 10.0%
COLASTIN Moisturizing Film forming	<i>Hydrolyzed Collagen (and) Hydrolyzed Elastin</i>	Collagen and elastin complex rich in organic precursors and nourishing agents.	1.0 - 3.0%

PRODUCT	INCI	DESCRIPTION	USE LEVEL
DENSISKIN D+ Skin tightening effect Improves skin micro-relief	<i>Fructooligosaccharides (and) Silanetriol (and) Hydrolyzed Gelatin (and) Glutamylamidoethyl Imidazole (and) Porphyridium Cruentum Extract</i>	Unique and exclusive biological complex. Helps to attenuate expression lines and marks, due to the molecular bioadhesion effect	1.0 - 10.0%
EPINUTRIX Barrier.Care Biomimetic Ceramides	<i>Panthenyl Dibehenate/Oleate</i>	Biomimetic lipid compound, developed from D-Panthenol biofunctionalized with behenic acid and omega-9, which stimulates the skin natural processes to reinforce the skin barrier. Improves the integrity of the epidermis and prevents transepidermal water loss.	0.5 - 1.0%
FRIOGEL Cooling	<i>Menthyl Lactate</i>	Menthol ester with long last refreshing effect. Does not have the irritant potential of menthol. Liquid or crystal form product, suitable for several formulations.	0.5 - 1.0%
PHYTOCAFEIL® Cellulite control Anti-Inflammatory	<i>Siloxanetriol Alginate (and) Caffeine (and) Butylene Glycol (and) Arnica Montana Flower Extract (and) Aesculus Hippocastanum (Horse Chestnut) seed Extract (and) Centella Asiatica Extract (and) Equisetum Arvense Extract (and) Fucus Vesiculosus Extract (and) Hedera Helix (Ivy) Extract (and) Ilex Paraguariensis Leaf Extract</i>	Plant-based complex with superficial microcirculation properties, enriched with caffeine derivative, helps combating the cellulite formation and fat deposits.	3.0 - 8.0%
PHYTO.CARE AOX Antioxidant Glow Effect	<i>Curcuma Longa Root (and) Camellia Sinensis Leaf (and) Chamomilla Recutita Flower (and) Rosmarinus Officinalis Leaf (and) Ethyl Oliviate (and) Ethyl Laurate (and) Ethyl Linoleate (and) Jojoba Esters (and) Oryza Sativa Bran wax (and) Quercetin (and) Xanthophyll (and) Alcohol</i>	Balance of botanical extracts and isolated active ingredients, with recognized antioxidant properties that promote advanced protection against oxidative stress and environmental aging.	1.0 - 5.0%
PLANTCOL Moisturizing Firmness	<i>Acacia Senegal Gum Extract</i>	Senegal Acacia Concentrate. Rich in gums, amino acids and high molecular weight proteins for functional nutrition. Moisturizing and film-forming agent, restores the skin's water balance.	1.0 - 5.0%
PROSHIELD MDC Urban photoprotection factor Coffee derivative	<i>Propanediol (and) Coffee arabica seed Extract (and) Aqua (and) Cyclodextrin</i>	Bioactive obtained by ecoextraction developed to be a urban photoprotector shield with antioxidant action and protection from digital pollution. Blue light skin shield.	0.5 - 5.0%
RUTAN SP Antioxidant Blood vessel protection	<i>Rutiny Succinate</i>	Soluble and stable rutin with antioxidant and anti-free radicals action.	0.3 - 2.0%
VENOXYL Anti-Inflammatory Draining action	<i>Ruta Graveolens Leaf Extract (and) Ginkgo Biloba Leaf Extract (and) Aesculus Hippocastanum seed Extract</i>	Balanced and stable association of extracts that have beneficial action on the superficial circulatory system. Ideal for tired legs and eye bags.	2.0 - 8.0%

ANTIBACTERIAL

Synergistic associations with antibacterial action.

PRODUCT	INCI	DESCRIPTION	USE LEVEL
DERMOBAC PBP Antimicrobians Active	<i>Polyglyceryl-3 Caprylate (and) Benzoic Acid (and) Propanediol</i>	Association of the Polyglyceryl-3 ester of 100% vegetable origin, with benzoic acid and propanediol. Multifunctional ingredient that provides antiseptic properties with a wide spectrum, due to the synergy of its components.	0.8 - 4.0%
DERMOBAC PF Antimicrobians Active	<i>Polyglyceryl 3 Caprylate (and) Phenoxyethanol</i>	Association of the polyglyceryl-3 ester of 100% vegetable origin, with phenoxyethanol. Multifunctional ingredient that provides antiseptic properties with a wide spectrum, due to the synergy of its components.	0.8 - 2.0%

SOAP ADDITIVES

Improves the appearance and characteristics of the soap.

PRODUCT	INCI	DESCRIPTION	USE LEVEL
POLYSOAP Improved foam stability and plasticity of soap bar	<i>Butyrospermum Parkii Butter (and) Hydrogenated Vegetable Oil</i>	Product specially designed for manufacture of bar soaps in general by improving processing and characteristics of the finished product.	1.0 - 5.0%

DERIVATIVES

Exclusive functional plant-derived ingredients. Safe and effective products, respecting the environment.

	PRODUCT	INCI	DESCRIPTION	USE LEVEL
COCONUT DERIVATIVES	POLYGREEN® COCONUT CETILA	<i>Cetyl Esters</i>	Excellent emollient agent which acts as a viscosity donor, promoting superior silkiness, and pleasant sensory perception for emulsions and make-up.	2.0 - 10.0%
	POLYGREEN® COCONUT MEA	<i>Cocamide MEA</i>	Monoethanolamide of coconut fatty acids. Thickener and foam stabilizer suitable for liquid soaps and shampoos. Ingredient DEA free.	0.5 - 2.0%

	PRODUCT	INCI	DESCRIPTION	USE LEVEL
COFFEE DERIVATIVES	CHERRY COFFEE OIL	<i>Coffea arabica seed Oil</i>	Integral oil extracted by cold pressing of the seeds of the cherry coffee toast of arabica species. High concentration of unsaponifiable material. Powerful flavoring and dye.	0.1 – 100.0%
	GREEN COFFEE BUTTER	<i>Coffea arabica seed Oil (and) Hydrogenated Vegetable Oil</i>	Stable combination of integral oil extracted from green coffee arabica, with other saturated vegetable triglycerides. Rich in essential fatty acids and unsaponifiable matter content.	1.0 – 100.0%
	GREEN COFFEE MICRO	<i>Coffea robusta seed Powder</i>	Robusta integral green coffee obtained by grinding the grains, followed by a micronization process, that maintains its hydrophilic components, especially the chlorogenic acid and lipophilic ones.	1.0 – 50.0%
	GREEN COFFEE OIL	<i>Coffea arabica seed Oil</i>	Pure oil extracted from green coffee seeds by cold pressing. Highly concentrated in unsaponifiables that characterizes it as an antioxidant and moisturizing active ingredient.	0.1 – 100.0%
	GREEN COFFEE SCRUB	<i>Coffea arabica seed Powder</i>	100% natural product that corresponds to the green coffee (arabica) milled, obtained after extraction of the oil. In this way, this product retains a rich and nutritious composition, especially rich in phytonutrients.	1.0 – 30.0%
OLIVE OIL DERIVATIVES	POLYGREEN® TENSOLIVE	<i>Olivamidopropyl Betaine</i>	Exclusive amphoteric surfactant developed from olive oil, with excellent antistatic and irritability reducing properties. Like other amphoteric surfactants, is a cosurfactant recommended for shampoos, conditioners, cleaning lotions and emulsions for facial and body care, where it acts as a cleaning or emulsifier agent.	2.0 - 10.0%
	POLYGREEN® SENSOLIVE	<i>Hydrogenated Olive Oil Unsaponifiables (and) Hydrogenated Ethylhexyl Olivatate (and) Dibutyl Adipate</i>	Emollient of natural origin based on olive oil. It represents a vegetable alternative to using silicones and/or silicones oils, because it confers a satin touch and a superior sensory with no oily residue.	2.0 - 25.0%
SHEA DERIVATIVES	AGREEN KARITÉ	<i>Butyrospermum Parkii Butter</i>	Shea Butter with emollient and moisturizing action and excellent sensory properties. Preserves the integrity of the skin barrier. It helps in conditioning and restores the natural flexibility of the hair.	2.0 - 4.0%
	AGREEN SHEA BETAINE	<i>Shea Butteramidopropyl Betaine</i>	Codetergent amphoteric surfactant activated by shea. Thickening aid also reducing irritability caused by other surfactants present on the formulation. Provides improved softening and smooth feel to skin and hair when compared to betaine obtained from coconut.	2.0 - 12.0%
	AGREEN SHEA Q	<i>Shea Butteramidopropyltrimonium Chloride</i>	Cationic surfactant from shea butter with lower irritability when compared to traditional cationic surfactants. Provides improved brightness, volume, combability and softness.	2.0 - 6.0%
	AGREEN W	<i>Shea Butter Cetyl Esters</i>	Shea cetyl ester, excellent emollient agent that acts as a viscosity donor, promoting superior silkiness and pleasant sensory for emulsions and makeup.	2.0 - 25.0%
	PHYTOLAN®	<i>Soybean Glycerides (and) Butyrospermum Parkii Butter Unsaponifiables (and) Tocopherol</i>	Composition of soy glycerides and unsaponifiable shea fraction with moisturizing, emollient and long-lasting film-forming properties.	1.0 - 10.0%

OLEOCHEMICALS AND SPECIALTIES

A wide range of molecules are used in different cosmetic products. They are the ingredients that structure the formulations promoting various functionalities (tensoactivity, emulsification, emollience, thickening, etc.).

	PRODUCT	INCI	DESCRIPTION	USE LEVEL
EMOLLIENTS	AGREEN LSO	<i>Ethyl Oleate</i>	A low-viscosity emollient ester that provides a very pleasant sensation and high spreadability with has excellent properties for dispersing inorganic filters and solubilizing organic filters and lipophilic active ingredients.	1.0 - 40.0%
	AGREEN TRIOL	<i>Olus Oil</i>	Mild emollient highly stable to oxidation. Composed of fractions of 100% purified vegetable oils, it represents a vegetable alternative to mineral oil and synthetic emollients.	5.0 - 100.0%
	DERMOLAN OLIGOÉSTER	<i>Diglyceryl Adipate / Caprate Caprylate / Hydroxystearate / Isostearate / Stearate</i>	Ester of plant origin, offers a highly substantive protective film which improves the skin barrier, making it difficult to lose water. Check sensory properties such as softness, good adhesion and pleasant feel in the skin. Natural alternative to animal lanolin.	0.5 - 30.0%
	DERMOLAN PG3 CAP	<i>Polyglyceryl-3 Caprylate</i>	Multifunctional active 100% vegetable, co-emulsifier, emollient and humectant. Antimicrobial properties being a green based alternative for aluminum free deodorants. It can be used in lotions, body creams and formulations of deodorants.	0.2 - 15.0%
	DERMOLAN PG4 IST	<i>Polyglyceryl-4 Isostearate</i>	Lipophilic ester from the reaction of isostearic acid with polyglycerol. It presents excellent compatibility with the skin and great stability against oxidation.	2.5 - 4.0%
	METHILAN TRI-P	<i>Triethyl Citrate</i>	Triester, 100% of vegetable origin. Is an active substance in combating body odor, as it inhibits the enzymatic degradation of sweat components. Emollient and film-forming properties for hair care.	1.0 - 5.0%
	POLYLAC 136 A	<i>Cetyl Lactate</i>	It has moisturizing, softening and soothing action for dry skin. Conditions and improves the texture of damaged and dull hair.	1.0 - 15.0%
	POLYMOL ADB	<i>Dibutyl Adipate</i>	Emollient for fluid creams and lotions. It has excellent spreadability over the skin. Provides a silky and smooth touch.	1.0 - 20.0%
	POLYMOL ADI	<i>Diisopropyl Adipate</i>	Non-volatile ester emollient with exceptional solvent power. Promotes dry sensory perception without residual oiliness.	1.0 - 6.0%
POLYMOL PGCC	<i>PEG-8 Caprylic/Capric Glycerides</i>	Smooth surfactant with emollient action promoting a gentle cleaning at low concentration and adapted for all kind of skin even sensitive skin.	1.0 - 5.0%	

	PRODUCT	INCI	DESCRIPTION	USE LEVEL
ESTERS	HEXIFEEL	<i>Ethylhexyl Cocoate</i>	Is a medium to high spreadable, conditioning emollient ester with good compatibility with the skin. It forms a non-greasy film on the skin, provides softness and improves the protective barrier.	0.5 - 40.0%
	POLYMOL CO	<i>Cetyl Ethylhexanoate</i>	Soft emollient with high hydration power and lubricity. Acts as protection shield, keeping dryness away. Alternative to cyclometicone due to dry and silky sensory.	1.0 - 25.0%
	POLYMOL CP	<i>Cetyl Palmitate</i>	Consistency agent and emollient for cosmetic and pharmaceutical preparations. Imparts soft silky feel.	1.0 - 5.0%
	POLYMOL GTCC	<i>Caprylic/Capric Triglycerides</i>	Liquid fatty acid triglyceride used in emulsions in general and in make up as an excellent emollient, it improves the touch and shine of finished products and promotes the balance of the hydrolipidic mantle.	1.0 - 100.0%
	POLYMOL HE	<i>PEG-7 Glyceryl Cocoate</i>	Acid ester with polyol. Moisturizing and emollient agent for formulations cosmetic and pharmaceutical.	1.0 - 5.0%
	POLYMOL IPM	<i>Isopropyl Myristate</i>	Non-greasy ester, emollient with good spreadability which gives a silky and dry touch for skin and hair products.	3.0 - 8.0%
	POLYMOL IPP	<i>Isopropyl Palmitate</i>	Excellent emollient, without residual oiliness on the skin or on the hair. Can also be used in hair masks and conditioners.	2.0 - 10.0%
ETHERS	POLYMOL DCE	<i>Dicaprylyl Ether</i>	Fast spreading emollient that promotes a dry touch, is resistant to hydrolysis, so it is particularly suitable for all formulations that require a wide pH range and a vegetable alternative to volatile silicones.	2.0 - 10.0%
	POLYMOL LDE	<i>Dicaprylyl Ether (and) Lauryl Alcohol</i>	Emollient indicated for transparent, opaque and pearly surfactant systems for improving foam volume and creaminess properties, in addition to increasing the system's viscosity.	0.5 - 1.0%

	PRODUCT	INCI	DESCRIPTION	USE LEVEL
SURFACTANTS	ALKALAN MIPA	<i>Cocamide MIPA</i>	Coconut fatty acid monoisopropanolamide. Associated with surfactants anionic, highly stable and creamy foam, DEA free.	1.0 - 5.0%
	ALKALAN DL 90	<i>Lauramide DEA</i>	Long chain thickening agent with emollient and lubricant action.	2.0 - 5.0%
	ALKALAN MC	<i>Cocamide MEA</i>	Monoethanolamide coconut fatty acids. Thickener free of dioxins, DEA Free. Acts as a foam stabilizer.	2.0 - 3.0%
	ALKALAN K 90	<i>Cocamide DEA</i>	Thickener, overfat and foam stabilizer for shampoos and soaps liquids. Facilitates the dissolution of essential oils and improves of the fragrances solubilization.	2.0 - 3.0%
	BETAION CAPB	<i>Cocoamidopropyl Betaine</i>	Fatty acids derivative amphoteric surfactant with high conditioning power and low irritability. Suitable for shampoos and shower gels.	3.0 - 6.0%
	LAURION CB17	<i>PEG-150 Distearate (and) Lauryl Glucoside (and) Polyquaternium-10 (and) Cocamidopropyl Betaine (and) PEG-7 Glyceryl Cocoate (and) Sodium C14-16 Olefin Sulfonate (and) Sodium Benzoate (and) Polysorbate 20</i>	Synergistic blend of biodegradable sulfate free surfactants with high sensorial performance and very gentle to the skin. Can be used for shampoo, body wash, hand liquid soaps, cleansing, baby care, kids and pets. Easy to use in cold process, without viscosity and pH adjustments.	15.0 - 26.0%
POLYMERS	HYDRA-POLYMER JRX	<i>Polyquaternium-10 (and) PEG-14M (and) Water</i>	Functional blend of special polymers exclusively developed to treat hair strands that are dry and weakened by chemical processes or external aggression.	2.0 - 8.0%
	POLÍMERO W - 25	<i>PEG-90 M (and) Water</i>	Polymer in solution that provides high lubricity and slip. Provides high viscosity and creamy foam in surfactant system.	4.0 - 10.0%
	POLÍMERO OX - 5	<i>PEG-14 M (and) Water</i>	Polymer in solution offers the feeling of sliding and lubrication while increasing the foam and improves spreadability.	2.0 - 10.0%

	PRODUCT	INCI	DESCRIPTION	USE LEVEL
AMINO FUNCIONAL & QUATS	POLYMINA BHA	<i>Behenamidopropyl Dimethylamine.</i>	Amido amine that, when neutralized with low molecular weight acids, acts as a pseudocationic surfactant with antistatic, conditioning, and untangling properties.	0.5 - 3.0%
	POLYMINA SDA	<i>Stearamidopropyl Dimethylamine</i>	Stearamidopropyl dimethylamine water amido amine that when neutralized with low molecular weight organic acids becomes soluble and acts as salt conditioner.	1.0 - 5.0%
	SUNQUART BTCA	<i>Behentrimonium Chloride (and) Cetearyl Alcohol</i>	Behenyl Trimethyl Ammonium Chloride and cetearyl alcohol. Cationic surfactant with anti-static property. Suitable for hair products and body emulsions.	0.5 - 5.0%
	SUNQUART CT50	<i>Cetrimonium Chloride (and) Alcohol (and) Water</i>	Cetyl Trimethyl Ammonium Chloride. Cationic surfactant in an aqueous solution. Suitable for hair conditioners and other hair preparations.	1.0 - 5.0%
	SUNQUART CAP 50	<i>Palmitamidopropyltrimonium chloride</i>	Innovative quaternary of the amidoquat class, from the quaternization of an amidated base, being an alternative to quaternary ammonium.	1.0 - 2.0%
	SUNQUART DHE	<i>Behentrimonium Chloride</i>	Is a cationic surfactant with antistatic properties, suitable for the manufacture of hair conditioners, hair masks and combing creams. Improve combability, softness and shine of the hair fiber.	0.5 - 5.0%
	SUNQUART TMS	<i>Behentrimonium Methosulfate (and) Cetearyl Alcohol</i>	Unique cationic surfactant. Suitable for conditioners, masks and styling creams. Increases combing, softness and shine to the hair. Also used in skincare.	1.0 - 5.0%

B A S E S

Bases of high technical and sensory performance, obtained through differentiated processes, adequate equipment, high quality raw materials and proprietary technology.

	PRODUCT	INCI	DESCRIPTION	USE LEVEL
SELF-EMULSIFYING BASES	POLYBASE 165F	<i>Glyceryl Stearate (and) PEG-100 Stearate</i>	Self-emulsifying base, acid stable, for manufacturing emulsions such as creams and lotions.	1.0 - 7.0%
	POLYBASE BIOESTERS	<i>Behentrimonium Methosulfate (and) Cetearyl Alcohol (and) Cetyl Alcohol (and) Polyglycerin-3 (and) Helianthus Annuus (Sunflower) Seed Oil (and) Ethyl Olivatate (and) Ethyl Laurate (and) Ethyl Linoleate (and) Oryza Sativa (Rice) Bran Wax (and) Jojoba Esters (and) Water (and) Alcohol</i>	Functional conditioning self-emulsifying wax for hair formulations, especially for hair dyes.	20.0%
	POLYBASE CRYSTAL	<i>Glyceryl Stearate (and) Cetearyl Alcohol (and) Stearic Acid (and) Sodium Cocoyl Glutamate</i>	Liquid crystal self emulsifying system for stable, glossy and fresh emulsions.	2.0 - 20.0%
	POLYBASE CT	<i>Cetearyl Alcohol (and) Polysorbate 60</i>	Excellent nonionic self-emulsifying base. Suitable for creams, lotions O/W, pharmaceutical ointments and cream deodorants.	3.0 - 18.0%
	POLYBASE G	<i>Cetearyl Alcohol (and) Cetareth-20</i>	Excellent nonionic self-emulsifying base. Suitable for creams, lotions O/W, pharmaceutical ointments and cream deodorants.	0.5 - 15.0%
	POLYBASE J	<i>Cetearyl Alcohol (and) Ceteth-20 (and) Ceteth-10</i>	Excellent nonionic self-emulsifying base. Suitable for creams, lotions O/W, pharmaceutical ointments and creamy deodorants.	5.0 - 10.0%
	POLYBASE N	<i>Cetearyl Alcohol (and) Sodium Cetearyl Sulfate</i>	Anionic self-emulsifying base. Suitable for manufacturing creams, lotions and ointments for the cosmetic industry.	5.0 - 20.0%

MICRONIZATION TECHNOLOGY

By particle to particle collision technology that enables obtaining differentiated products with specific particle size distribution, adding value to cosmetics products that require high quality standards.

	PRODUCT	INCI	DESCRIPTION	USE LEVEL
MICRONIZATION TECHNOLOGY	AMETISTA PW	<i>Amethyst Powder</i>	Ultrafine powder, with average particle size less than 5µ. In its generic formula we find silica, iron dioxide, manganese, titanium, calcium, magnesium and traces of chromium. Used in lithocosmetics and in massage products.	0.1 - 10.0%
	AVENAM BL 40	<i>Colloidal Oatmeal</i>	Colloidal oatmeal with rich moisturizing nutrients and dermo-protective action. Has a high content of amino acids, beta-glucans and B vitamins.	5.0 - 10.0%
	CITRINO PW	<i>Citrine</i>	Fine, opaque powder consisting basically of SiO ₂ . It is used for its nourishing action that strengthens the skin against irritations.	0.1 - 10.0%
	RICE EXFOLIATOR SN	<i>Oryza Sativa Hull Powder</i>	Upcycled natural exfoliator derived from rice. Indicated for a gentle and effective exfoliation, it contributes to cell renewal and helps unclogging pores. Alternative to synthetic and microplastic exfoliants.	0.5 - 8.0%
	RICE SILK SN	<i>Oryza Sativa Hull Powder</i>	Upcycled natural silica derived from rice. Sensory agent, promotes softness and pleasant sensation to touch. With anti-oil action, it provides a mattifying effect. Plant origin alternative to synthetic silica and microplastics.	0.5 - 70.0%
	SAFIRA PW	<i>Sapphire Powder</i>	Fine powder of a native mineral, consisting mainly of aluminum oxide.	0.1 - 10.0%
	TURMALINA PW	<i>Tourmaline</i>	Tourmaline stimulates the skin's superficial micro-circulation by a physical phenomenon of infra-red energy emission. Helps to restore skin radiance.	0.1 - 10.0%

SKINCOLOR & COLORBASES

Exclusive technology for covering up skin imperfections: micronized inorganic pigments and ready-made bases for the manufacture of make-up products, foundation and sticks developed specifically to reduce complexity, physical inventory and optimize manufacturing process.

	PRODUCT	INCI	DESCRIPTION	USE LEVEL
SKINCOLOR TECHNOLOGY	COLORBASE BINDER	<i>Water (and) Cellulose Gum (and) Magnesium Aluminum Silicate</i>	Composed of anionic polymers derived from cellulose and a mineral inert derived from a silicate. Acts as a suspending agent.	40.0 - 60.0%
	COLORBASE BL	<i>Hydrogenated Olive Oil Unsaponifiables (and) Hydrogenated Ethylhexyl Oliviate (and) Dibutyl Adipate (and) Ceteareth - 20 (and) Stearic Acid (and) Glyceril Stearate (and) Olus Oil (and) Canola Oil (and) Phenoxyethanol</i>	Composed of highly stable vegetable oils, emollients of vegetable origin and low and high HLB emulsifiers. Ideal for manufacturing of liquid and corrective bases.	26.0 - 30.0%
	SKINCOLOR	<i>Titanium Dioxide (and) Talc (and) C177491 (and) C177492 (and) C177499</i>	Technology in full color with ultra-fine texture micronized inorganic pigments (iron oxide). Ideal for incorporation into creams and ointments, compact powder, blush and shadows.	4.0 - 30.0%

BOTANICALS

Innovative products obtained through a differentiated technology that transmits security to the customer. With a complete line of botanical extracts, bioactive complexes and vegetable proteins, Bioextract Farmaservice, our partner for botanicals derivatives, entrusts AQIA, with exclusivity, the promotion and sales of its entire product line.

AÇAÍ

Euterpe Oleracea Fruit Extract

ALOE VERA

Aloe Barbadosensis Leaf Extract

ALGAE GRACILARIA

Algae Extract

ALGAE HYPNEA

Algae Extract

ANDIROBA

Carapa Guianensis Extract

APPLE

Pyrus Malus (Apple) Fruit Extract

APRICOT

Prunus Armeniaca (Apricot) Fruit Extract

ARNICA

Arnica Montana Flower Extract

ARTEMIA GP4G

Artemia Extract

ASIAN CENTELLA

Centella Asiatica Extract

AVOCADO

Persea Gratissima (Avocado) Fruit Extract

BRAZIL NUT

Bertholletia Excelsa Seed Extract

BREWER'S YEAST

Yeast Extract

BUD BAMBOO

Bambusa Vulgaris Extract

BURDOCK

Arctium Lappa Root Extract

CALENDULA

Calendula Officinalis Flower Extract

CAMU CAMU

Myrciaria Dubia Fruit Extract

CARROT

Daucus Carota Sativa (Carrot) Root Extract

CENTELLA ASIATICA

Centella Asiatica Extract

CHAMOMILE

Chamomilla Recutita (Matricaria) Flower Extract

CHINA CINNAMON

Cinnamomum Zeylanicum Bark Extract

COCOA

Theobroma Cacao (Cocoa) Extract

COCONUT

Cocos Nucifera (Coconut) Extract

COFFEE

Coffea Arabica (Coffee) Seed Extract

CONFREI

Symphytum Officinale Leaf Extract

COTTON

Gossypium Herbaceum (Cotton) seed Extract

CUCUMBER

Cucumis Sativus (Cucumber) Fruit Extract

EGG YOLK

Egg Yolk Extract

EUCALYPTUS

Eucalyptus Globulus Leaf Extract

FUCUS ALGAE

Fucus Vesiculosus Extract

GINGER

Zingiber Officinale (Ginger) Root Extract

GINKGO BILOBA

Ginkgo Biloba Leaf Extract

GINSENG

Panax Ginseng Root Extract

GRAPE

Vitis Vinifera (Grape) Fruit Extract

GREEN TEA

Camellia Sinensis Leaf Extract

GUARANA

Paullinia Cupana seed Extract

HENNA

Lawsonia Inermis (Henna) Extract

HONEY

Honey Extract

HOP

Humulus Lupulus (Hops) Extract

HORSETAIL

Equisetum Arvense Extract

INDIA CHESTNUT

Aesculus Hippocastanum (Horse Chestnut) seed Extract

INDIAN CLOVE

Eugenia Caryophyllus (Clove) Flower Extract

IVY

Hedera Helix (Ivy) Extract

JASMINE

Jasminum Officinale (Jasmine) Flower Extract

JOAZEIRO BARK

Zizyphus Joazeiro Bark Extract

KIWI

Actinidia Chinensis (Kiwi) Fruit Extract

LAVENDER

Lavandula Angustifolia Flower Extract

LEMON

Citrus Medica Limonum (Lemon) Fruit Extract

LETTUCE

Lactuca Scariola Sativa (Lettuce) Leaf Extract

LICORICE

Glycyrrhiza Glabra (Licorice) Root Extract

LINUM

Linum Usitatissimum (Linseed) seed Extract

MALLOW

Malva Sylvestris (Mallow) Extract

MANGO

Mangifera Indica (Mango) Fruit Extract

MELISSA

Melissa Officinalis Leaf Extract

MINT

Mentha Arvensis Leaf Extract

MYRRH

Commiphora Myrrha Resin Extract

MULBERRY

Morus Nigra Fruit Extract

NETTLE

Urtica Dioica (Nettle) Extract

OATS

Avena Sativa Meal Extract

OLIVE

Olea Europaea (Olive) Fruit Extract

ORANGE

Citrus Aurantium Dulcis (Orange) Fruit Extract

OYSTER

Oyster Extract

PAPAYA

Carica Papaya (Papaya) Fruit Extract

PASSIFLORA

Passiflora Incarnata Extract

PASSION FRUIT

Passiflora Incarnata Fruit Extract

PEAR

Pyrus Communis (Pear) Fruit Extract

PINEAPPLE

Ananas Sativus (Pineapple) Fruit Extract

PITANGA

Eugenia Uniflora Fruit Extract

POLLEN

Pollen Extract

POMEGRANATE

Punica Granatum Fruit Extract

PROPOLIS

Propolis Extract

QUINA

Cinchona Calisaya Extract

QUINOA

Chenopodium Quinoa seed Extract

ROSEMARY

Rosmarinus Officinalis (Rosemary) Leaf Extract

ROSE WATER

Rosa Centifolia Flower Water

ROYAL JELLY

Royal Jelly Extract

ROSE HIP

Rosa Canina Flower Extract

RUE

Ruta Graveolens (Rue) Leaf Extract

SAGE

Salvia Officinalis (Sage) Leaf Extract

SAMBUCUS

Sambucus Nigra Flower Extract

SANDALWOOD

Santalum Album (Sandalwood) Wood Extract

SEED OF LINSEED

Linum Usitatissimum (Linseed) Seed Extract

SIX HERBS

Rosmarinus Officinalis (Rosemary) Leaf Extract
(and) *Arnica Montana* Flower Extract (and)
Chamomilla Recutita (Matricaria) Flower Extract
(and) *Aesculus Hippocastanum* (Horse Chestnut)
Seed Extract (and) *Symphytum Officinale* Leaf
Extract (and) *Cinchona Calisaya* Extract).

SPEARMINT/MINT ARVENSIS

Mentha Arvensis Leaf Extract

STRAWBERRY

Fragaria Vesca (Strawberry) Fruit Extract

SUGAR CANE

Saccharum Officinarum (Sugar Cane) Extract

SUNFLOWER

Helianthus Annuus (Sunflower) seed Extract

SWEET ALMOND

Prunus Amygdalus Dulcis (Sweet Almond) Seed
Extract).

THYME

Thymus Vulgaris (Thyme) Extract

TILIA

Tilia Cordata Flower Extract

TROPICAL FRUITS

Tropical Fruits Extract

URUCUM

Bixa Orellana seed Extract

WALNUT

Juglans Regia (Walnut) Leaf Extract

WATERMELON

Citrullus Vulgaris (Watermelon) Fruit Extract

WHEAT GERM

Triticum Vulgare (Wheat) Germ Extract

WHITE TEA

Camellia Sinensis Leaf Extract

WHITE ROSE

Rosa Centifolia Flower Extract

WITCH HAZEL

Hamamelis Virginiana (Witch Hazel) Leaf Extract

YLANG YLANG

Cananga Odorata Flower Extract

ZIZIPHUS JOAZEIRO

Zizyphus Joazeiro Bark Extract
